

MedIntel AI - Heart Report

Sample PDF report for download

Report Summary

Patient Name	Rutik
Report Date	2026-06-13
Report Type	Heart Report
Prepared By	MedIntel AI

Analysis

The heart-related analysis suggests a high risk indication. This may be due to abnormal cardiac markers, elevated blood pressure, cholesterol imbalance, or symptoms that require medical review.

Risk Level	High Risk
Suggested Action	Consult a cardiologist
Monitoring	Blood pressure, ECG, lipid profile, and follow-up assessment

Recommendations

- Reduce salt and saturated fat intake.
- Exercise only if approved by a doctor.
- Monitor blood pressure regularly.
- Seek urgent care for chest pain, shortness of breath, fainting, or severe weakness.
